Dear LR Partners,

I am pleased to present the latest LR Collection to you. As of this year, our entire range of high-quality health and beauty products can be found in one catalogue. This provides you with all the information you need.

The biggest innovation in this issue concerns our range of healthcare products. The market for innovative healthcare concepts as a whole has grown exceptionally throughout Europe. More and more people take their health in their own hands. With our new strong **LR LIFETAKE** brand, we want to be a competent partner for these people – true to our motto "More quality for your life". LR LIFETAKE not only combines all LR health products in a clear and concise way, it also marks the beginning of a completely new concept: It focuses on the "rhythm of life", i.e. the individual person with their very own requirements. We have identified six of the most important health needs and created a holistic solution for each of them. Every solution consists of three building blocks: (1) a basic solution, (2) individual product supplements – tailored to the respective requirement – and (3) complementary expert tips. These solutions will make marketing of our LR LIFETAKE products even easier, more targeted and thus more successful in the future. We provide you with a whole new approach to your LR business. Simple for you as a partner – added value for your customers!

Our **LR ALOE VIA** and **LR MICROSILVER PLUS** care series as well as our anti-aging management **LR ZEITGARD** are also clearly aligned to your needs and those of your customers. LR ALOE VIA accompanies you on the way to naturally nurtured skin with the nourishing and regenerating power of Aloe Vera – care from head to toe, for young and old. LR ZEITGARD stands for innovative and sustainable anti-aging care for all ages and skin requirements. And LR MICROSILVER PLUS offers perfect protection and antibacterial care for irritated and stressed skin.

Take advantage of the opportunity offered by the LR business and the unique health & beauty concepts – and convince others!

Expert Tips

EXPERT TIPS:

“Daily intake of all essential nutrients such as vitamins, minerals and trace elements in sufficient quantity forms the basis of a healthy life. There are also other important components that influence our daily well-being. Therefore, I recommend integrating the following simple tips on nutrition, lifestyle and exercise into your everyday life.”

Dr. Sven Werchan, nutrition expert

Dr. Sven Werchan
Nutritional expert

LIFESTYLE

A healthy lifestyle means well-being on many different levels. The most important basis is loving yourself.

- Be good to yourself. Not too harsh. Not too critical. You will see how good that feels.
- Let go of everything that is not important to you or does not do you any good. Clean up: real-life AND digital clutter: Unsubscribe from unnecessary newsletters and empty your email inbox.

NUTRITION

Start with small changes that you can easily integrate into your daily routine – but that make a big difference.

- For example, work in wholemeal days and try: Brown rice, wholemeal pasta and of course bread.
- Eat a lot of green vegetables: broccoli, rocket, kale, spinach or Chinese cabbage provide many valuable vitamins.

MOVEMENT

The most important thing about exercise is to move at all. You should integrate it into your daily life, if possible.

- Take the stairs at least once a day instead of the lift or escalator. Your muscles will appreciate it.
- Combine what's useful with what's business: Why not have your next meeting while taking a walk around the block?

Mental Power

ENHANCED PERFORMANCE IN EVERY SITUATION!

You always give your best. Whether at the job, at university or in everyday family life: You challenge yourself or you are being challenged. This often leads to stress. LR LIFETAKT Mental Power gives you the power and serenity to master any situation in everyday life, no matter how demanding^{1,2,3,4}.

¹ Vitamin E in Mind Master helps protect the cells from oxidative stress.

² Thiamine and vitamin B12 in Mind Master contribute to a regular energy metabolism.

³ Vitamin B12 in Mind Master contributes to your mental health.

⁴ Magnesium in Pro Balance contributes to electrolyte balance.

Mental Power

Your answer to challenges in everyday life: power.

Taking on challenges and mastering them is a part of everyday life. The challenges of everyday – professional and private – life can motivate us to small and major feats. Some people even need this stress to reach their full potential. But if you demand a lot from your body, you also have to give something back. And find a healthy balance between stress and relaxation.

Whether you are a student in the middle of your exam period or a

young parent permanently under stress juggling the double burden of household and job. Whether you are a professional or an athlete continually rising beyond yourself – you all have one thing in common:

You want to remain productive in the long run. But not just like this, but with success, so that your body remains efficient even under stress. LR LIFETA KT has a solution for you.

Challenging everyday life, intensive lifestyle?

LR LIFETA KT MENTAL POWER. For extra power and serenity.

The unique, coordinated product combination, LR Lifetakt Mental Power helps neutralise the negative effects of stress in the body¹ and gives you energy. You stay fully focused to make the most of yourself.²

Expert Tips

EXPERT TIPS:

"If you work and live at a fast pace, you have to supply your body with various nutrients. But that is not all: to make sure that challenges do not become stressful, you should take physical and mental time-outs from time to time. A combination of healthconscious nutrition, sufficient exercise and a healthy lifestyle will lead you directly to your goal. The expert tips help you maintain your performance level and increase your energy level."

LIFESTYLE

If you achieve high performance every day, you also have to make a little room for yourself.

- 2 minutes of conscious breathing with closed eyes relaxes the nervous system and creates a new balance. Tensions are released automatically.
- One media-free day per week can have a very inspiring effect. Switch off the TV, radio and, if possible, the mobile phone.

NUTRITION

Whether super food or local fruit and vegetables – it is important to eat a varied diet. The more colourful the plate, the more diverse the nutrients you take in.

- It is not without reason that nuts are a typical snack food for students. Eat a variety of foods and mix walnuts, Brazil nuts or cashews with some extra dry fruit.
- The ultimate breakfast: Rolled oats with cinnamon, fresh berries and nuts. That will make you fit and happy.

MOVEMENT

Exercise helps relieve stress and normalise blood sugar and blood fat levels.

- If you sit a lot because you have to work hard at work or for your studies, take a 5-10 minute walk in the fresh air during your lunchbreak. Get your circulation going.
- A simple exercise for which you do not even have to leave the room: Shake out arms and legs about 5 times a day for 30 seconds.

LIFESTYLE

Perhaps the best health tip of all: Maintain your friendships. They are irreplaceable.

There is nothing better for maintaining your own quality of life and sense of well-being than a healthy diet.

Expert Tips

EXPERT TIPS:

“Fresh air is a real all-rounder if you proceed with care and are well prepared. Outdoors, in air-conditioned rooms or wherever there are a lot of people in the same location, your immune system can withstand any onslaught – if you combine a healthy diet, sufficient exercise and a balanced lifestyle. For a holistic sense of well-being at any time of the year.”

LIFESTYLE

**Your outer balance automatically affects your inner self.
Less stress and more sleep are important elements for a
functioning immune system.**

- If you notice a cold coming on: treat yourself to a lot of rest and go to bed an hour earlier.
- If you still caught a cold, air the room several times a day. This reduces the concentration of infectious micro-organisms in the room.

NUTRITION

Our food contains so many beneficial substances: Especially plants and spices can boost our immune system.

- Kiwi is a real vitamin C powerhouse – with over 50% of the daily requirement in a single fruit.
- If you feel a little under the weather, Grandma's popular chicken broth with meat warms from within and is comforting.

MOVEMENT

In order to be fit and stay fit, exercise is the be-all and end-all. It doesn't always have to be an extensive workout.

- 5-10 minutes a day in the fresh air can already make a difference. Take a short walk and breathe in and out deeply through your nose.
- Do not sit in one position for too long. Get up often, stretch and take a few steps. Take a breath.

Aloe Vera Drinking Gel

Scarcely any other natural product has such a successful and ancient tradition as the Aloe Vera plant.

Aloe Vera Drinking Gel Traditional with Honey was LR's first Aloe Vera product and at the same time the most successful LR product of all time. For this, as well as for all our Aloe Vera Drinking Gels, we use only pure Aloe Vera leaf gel in the highest possible concentration. One of the most important individual substances contained in the leaf gel of Aloe Vera is Acemannan, which develops its beneficial properties especially in combination with numerous other substances contained in Aloe Vera. The pure natural product is combined with ingredients that give the product its individual properties

Quality is our top priority.

From cultivation to the final product – every step in the supply chain is subject to strict quality controls at LR. This is confirmed by SGS Institut Fresenius and the certificates of the IASC.

“You have to like people, put yourself in their position and touch them with your fashion. And this also holds true for a good perfume. I want to touch people’s hearts with my perfume, not seduce them.”

“Haute Parfum” for Women

by Guido Maria Kretschmer

As an international designer, Guido Maria Kretschmer has been creating men's and women's fashion for many years – fashion which is closely oriented towards the people who wear it. But a look is only really perfect when it is complemented by a fragrance which highlights the personality. So what could be more appropriate than creating an own fragrance collection for men and women? Just like with his fashion collection, the two perfumes are characterised by what defines Guido's personality: stylish elegance, attention to detail and an aura of international flair.

The women's perfume is a unique composition. Delicate seduction meets timeless elegance – from the top to the base note. A bouquet of **tangerine**, **rose** and **vanilla** gives the perfume a seductive and warm note.

Elegant packaging with loving attention to detail: stylish design box with elegant satin and a quote from the designer himself.
