LUXURIOUS
CARE

WINTER PROTECTION OF THE SKIN FROM THE DEPTHS OF THE POLAR SEAS

Inspired by the tremendous power of the polar ice world, LR developed the very first LR ZEITGARD Arctic Winter Cure, with a cryoprotective protein from the polar seas. The 2-phase cure stimulates the adjustment of the skin to winter weather conditions, while protecting it from the low temperatures, the cold winds and the dry air of heated indoor areas, offering intensive care, energy and rejuvenation!

1. BUILD-UP PHASE

INTENSIVE BOOST THAT ACTIVATES WINTER PROTECTION

Arctic Boost Elixir are high-concentration capsules with a cryoprotective protein and extracellular protective substances that help the skin gain resilience and boost its natural ability to protect itself from the cold:

- ✓ Activates the skin's natural winter shield
- ✓ Protects from dryness
- ✓ Boosts skin elasticity for more resilience

Application: Stimulate the skin during the first 14 days of the cure by applying the content of a capsule on clean face every morning. Next, apply your day cream as usual.

2. REGENERATION PHASE

INTENSIVE REGENERATION THAT MAINTAINS WINTER PROTECTION

The process of skin renewal is now working at full speed to preserve the protection activated by the capsules. At this stage, the skin requires intensive rejuvenation to maintain its protective winter shield. This action is ensured by the use of the Sleeping Mask during night, the most effective period of the day for skin care.

- ✓ Regenerating care
- ✓ Intensive hydration
- ✓ Additional protection from external factors

Application: For optimal skin protection after the 15th day, apply the Sleeping Mask on clean face twice a week instead of your usual night cream and let it unfold its action during the night.
