A month full of changes AND NEW GOALS!

Summer is just over and most people have already returned to their daily routine. September, a month full of changes and new goals has arrived and a new era begins... autumn!

After the summer, one of the most frequent goals are to restore their body to its normal condition since the irregularities of the summer lifestyle often result in some extra pounds! So now is the time to start trying to lose weight!

September is a month most people consider ideal for setting new goals or starting a new effort to improve and adopt a healthy lifestyle. For this reason, this month is ideal for starting such an endeavor...

Keep in mind that the more determined you are when you start, the more chances you have to achieve your goal!

Our solution to help you regulate your weight is the method of meal substitution: By substituting 2 of your daily meals with Figu Active Shakes or Soups, in combination with Fiber Boost and Protein Power.

In this way, your full meals with low calories are but with all necessary nutrients are introduced into your daily routine. Combining meal supplements with fiber and protein improves the digestion of macronutrients and boosts your metabolism. For long-term results, combine Figu Active meals with Fiber Boost and Protein Power!

TIP

Do not forget that with the Body Mission 28-Day Program you have your personal online weight management at www.body-mission.com/gr so that you do not deviate from your personal goal!

Support your immune system

THIS FALL, IMMUNE SUPPORT IS ESSENTIAL

The rapid weather and temperature changes of September make most people vulnerable to infections. An important factor in maintaining the health of our immune system is adopting a proper and balanced diet. In combination with special dietary supplements, it can be the most 'enhanced' solution.

More specifically,

1) The triple boost for the immune system, the **Aloe Vera Drinking Gel Immune Plus**. It strengthens the cells of the immune system, activates the production of new immune cells and stimulates the immune system so that it reacts faster. Aloe Vera Drinking Gel Immune Plus is the ideal product for a holistic solution for immune support.

2) Bovine colostrum is known to contain immunoglobulins, growth factors, peptides (such as colostrinin), and proteins with antimicrobial activity. In addition to the above, it also contains components that are naturally contained in the body and cells that are involved in defense mechanisms of the human body, such as neutrophils and macrophages.

3) Vitamin D, antioxidant vitamin E and B-complex vitamins are essential for the normal function of the body. Vitamins are well known for their important effect on the body, most importantly vitamin D, which strengthens the body's response to infections, according to various studies. 1 teaspoon of **VitaActive** per day covers 200% of the body's RDA in vitamin D.

4) Cistus extract, zinc and Vitamin C are combined in a product that specializes in supporting the immune system. The antioxidant activity of the polyphenols of this unique plant, in addition to zinc and vitamin C, which boost the normal function of the body's defenses, make **Cistus Incanus** capsules a must-have for this time of year!

This fall, prepare your body properly with LR products.
